Yes, we offer scholarships. We offer scholarships directly to students AND we grant scholarships to academic institutions through the AmeriSpan Collegiate Scholarship Fund. AmeriSpan will award more than \$100,000 in scholarships to university and college study abroad departments. Your college will determine which students are eligible to receive these scholarships. ### Add-Ons

We know that medical students rarely have much time. However, please note, in most locations it is now possible to add on additional weeks of classes and/or clinical observation! Deepen your immersion and get more clinical exposure for just a little longer commitment!

### Other Locations & Other Languages

If you can't find the destination or language you want, we can usually offer medical vocabulary at any of our language programs. In general, you would take a group language programs and then add on 5-10 private classes per week. Please note that many locations charge a 10-20% surcharge for specialized private classes.
